## COLD, FLU AND COVID HYGIENE

It is that time of year when colds, flu and Covid tend to be more common around our community. Good health hygiene practices can greatly reduce the chance you will become unwell or pass it on to others.

- Cover your nose and mouth with a tissue or elbow when you cough or sneeze.
- Throw the tissue in a plastic-lined rubbish bin after you use it.
- Wash your hands often with soap and water, especially after you cough or sneeze.
- Avoid touching your eyes, nose or mouth as germs can be spread that way.

**Please discuss the above points with your children and we ask that children remain at home if unwell.**
