COVID, FLU AND COMMON COLD CHALLENGES

It is very clear that there are many illnesses within communities at present and they are impacting on the health of many. This is no different at CGPS with many classes having a number of students away each day. It is important to note that staffing both teachers and Education Support staff has been extremely challenging due to illness and isolation expectations. We are working extremely hard to keep normal class structures and

programs going at present and we are asking for your assistance - **if your child is unwell please keep them home and also make contact with the school to inform.**

Illnesses such as the common cold, flu and Covid are easily transmittable, and we need healthy kids and teachers at school. We understand this is a difficult time although keeping everyone healthy is a priority at this point of the year.

The Thriving Kids and Parents Project

The COVID-19 pandemic has significantly impacted children's social and emotional development, resulting in increased levels of anxiety and significant challenges in developing healthy peer relationships. The Commonwealth-funded Thriving Kids and Parents Project offers high-quality, evidence-based parenting programs to support parents and schools in developing a shared language and a toolbox of strategies to support every child's learning and well-being.

The Thriving Kids and Parents Project offers your school 3 **FREE** interactive parenting seminars throughout 2023.

The seminars provide parents with strategies to:

- Promote children's development and self-regulation.
- Manage their child's everyday anxiety.
- Develop healthy peer relationships, build resilience, and prevent bullying.

Your role is to invite families to participate in the **FREE** online parenting seminars and associated research tasks as part of the Thriving Kids and Families Project.

Express your school's interest through the link below to be one of only 100 Victorian schools invited to participate in the Thriving Kids and Parents Project.
